PROFESSIONAL SUMMARY-

Java Developer with hands-on experience in Java 17, Spring Boot, Hibernate, JDBC, and MySQL, with hands-on experience developing and testing RESTful APIs (GET, POST, PATCH, DELETE) using Postman, and building MVC web applications

TECHNICAL SKILLS-

Languages: Java 17
Frameworks: Spring, Spring Boot, Hibernate, Spring ORM, Spring MVC.
Backend: Servlets, JSP, JDBC, REST API.
Frontend: HTML5, CSS3, JavaScript,React.js.
Database: MySQL, SQL queries, Joins, Indexing
Tools: Git, GitHub, Maven, Eclipse IDE, VS Code, Apache Tomcat, MySQL Work Bench, Postman.
Concepts: OOP's, Exception Handling, Collections Framework, CRUD, MVC architecture, DAO Design, Session Management.

PROJECTS-

1. **Foodie Store – Online Food Ordering System** https://github.com/ompatil8050026171-code/FoodieStore

Tech Stack: Java, Servlets, JSP, MySQL, HTML5, CSS3, JavaScript, JDBC.

- Engineered an online food ordering system using MVC architecture and DAO design pattern, supporting 5 core modules: restaurant, menu, cart, order, and user management
- Implemented menu filtering and sorting functionality across 3 criteria (price, ratings, restaurant name), improving product discoverability
- Built session-based shopping cart with persistent order history using JSP/Servlets, reducing repeat-order time
- Designed normalized MySQL schema and integrated JDBC for CRUD operations, ensuring efficient data retrieval and storage

2. **Movies Hub-Movie Booking Web Application** https://github.com/ompatil8050026171-code/MoviesHub

Tech Stack: Java, Spring Boot, REST API, Spring Data JPA, Hibernate, MySQL, JSP, JavaScript, HTML, CSS

- Developed a full-stack movie booking application with **Spring Boot REST APIs** and a **JSP/JavaScript** frontend.
- Implemented **movie browsing, search, movie details, theatres, shows, seat selection, and snack selection**.
- Developed complete **checkout and booking workflow** with dynamic seat/snack price calculation and booking confirmation.
- Implemented **session-based user management and booking history** using Spring Data JPA, Hibernate, and MySQL.

INTERNSHIP-

Full Stack Developer Intern – Tap Academy, Bengaluru **Feb 2026 – Sep 2026**

Tech Stack: Java, HTML5, CSS3, JavaScript, Servlets, JSP, JDBC, MySQL, MVC, Hibernate, Spring.

- Developed and maintained full-stack web application modules using Java, Servlets, and JSP under MVC architecture
- Implemented database connectivity and CRUD operations using JDBC integrated with MySQL
- Collaborated with senior developers on real-world development practices, code reviews, and debugging Participated in Agile daily stand-ups and sprint reviews to track progress and incorporate feedback.

EDUCATION-

Bachelor of Engineering (B.E.) – Computer Science and Engineering
Dr Sri Shivakumar Mahaswamy College of Engineering, Bengaluru | CGPA-8.43 | Year-2026

Pre-University Course (PUC)- Science
Excellent PUC College, Moodbidre | Percentage-82.83% | Year-2022

SSLC (10th Grade) – KSEEB
Holy Cross Convent School, Bidi | Percentage-83.04% | Year-2020
