PROFESSIONAL SUMMARY

Software Developer and 2026 Computer Science graduate (B.E., CGPA 8.43) with Full Stack Developer internship experience at Tap Academy. Built 3 full-stack Java applications using Servlets, JSP, JDBC, Spring Boot, Hibernate and MySQL, including a movie booking platform with 55 REST API endpoints. Skilled in OOP, MVC and DAO design, and SQL, with Agile experience in code reviews, debugging and sprint reviews. Seeking a Software Developer or Software Engineer role to build scalable, maintainable applications.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering 2022 – 2026
Dr Sri Shivakumar Mahaswamy College of Engineering, Bengaluru | CGPA: 8.43 | Graduation Year: 2026

Class XII (12th) – Pre-University Course (PUC), Science 2020 – 2022
Excellent PUC College, Moodubidre | Percentage: 82.83% | Year of Passing: 2022

Class X (10th) – SSLC, KSEEB 2020
Holy Cross Convent School, Bidi | Percentage: 83.04% | Year of Passing: 2020

TECHNICAL SKILLS

Languages: Java 17, SQL
Concepts: Object-Oriented Programming (OOP), Exception Handling, Collections Framework, CRUD
Backend: Servlets, JSP, JDBC, REST API, JSON, DAO Design
Frontend: HTML5, CSS3, JavaScript, React.js
Database: MySQL, SQL Queries, Joins, Indexing
Frameworks: Hibernate ORM, Spring Boot
Tools: Git, GitHub, Eclipse IDE, VS Code, Apache Tomcat, MySQL Workbench, Postman

WORK EXPERIENCE

Full Stack Developer Intern | Tap Academy, Bengaluru, Karnataka Feb 2026 – Sep 2026
Tech Stack: Java, Servlets, JSP, JDBC, MySQL, Hibernate, Spring, Spring Boot, MVC, HTML5, CSS3, JavaScript

- Engineered full-stack web modules in Java using Servlets and JSP under MVC architecture
- Implemented database connectivity and CRUD operations using JDBC with MySQL and the DAO pattern
- Applied Hibernate, Spring and Spring Boot to build a movie booking REST backend with 55 endpoints and 9 JPA entities
- Delivered 3 full-stack Java projects with 29 servlets and controllers, 33 JSP pages and 22 MySQL tables
- Collaborated with senior developers on code reviews and debugging to improve code quality
- Participated in Agile daily stand-ups and sprint reviews to track progress and incorporate feedback

PROJECTS

Foodie Store – Online Food Ordering System | https://github.com/ompatil8050026171-code/FoodieStore
Tech Stack: Java, Servlets, JSP, MySQL, HTML5, CSS3, JavaScript, JDBC

- Designed an online food ordering app with 5 modules (restaurants, menu, cart, orders, users), 10 servlets and 11 JSP pages using MVC and 5 DAO classes
- Created a session-based cart with HttpSession and a HashMap (add, update, remove) and saved order history in MySQL
- Added name, rating and price sorting (Comparators) and Veg/Non-Veg filtering on a normalized 5-table MySQL schema
- Secured accounts with BCrypt password hashing and PreparedStatement queries to prevent SQL injection

Movies Hub – Movie Booking Web Application | https://github.com/ompatil8050026171-code/MoviesHub
Tech Stack: Java, Spring Boot, REST API, Hibernate, MySQL, JSP, JavaScript, HTML, CSS

- Structured a Spring Boot backend into controller, service and repository layers with 9 REST controllers and 55 endpoints (GET, POST, PUT, DELETE), tested in Postman
- Modeled 9 JPA/Hibernate entities with one-to-many and many-to-one mappings (theatres, screens, shows, bookings)
- Wrote the checkout flow that calculates seat and snack totals and confirms each booking in a database transaction
- Integrated a JSP and JavaScript frontend of 10 pages with the REST APIs for browsing, search, theatres, shows and seat selection, plus session-based login and booking history

Fashion Store – E-Commerce Web Application | https://github.com/ompatil8050026171-code/Fashion-Store
Tech Stack: Java, JDBC, Servlets, JSP, MySQL, HTML5, CSS3

- Developed an e-commerce site with 10 servlets and 12 JSP pages for registration, login, category-wise product browsing, product details and variants, cart and order placement, structured with MVC
- Organized data access into 5 DAO interfaces with implementations over 8 MySQL tables using JDBC CRUD
- Protected all queries with PreparedStatement against SQL injection and styled responsive pages with media queries
