PROFESSIONAL SUMMARY

Java Developer with hands-on experience in Java 17, Spring Boot, Hibernate, JDBC and MySQL. Built and tested RESTful APIs (GET, POST, PATCH, DELETE) with Postman and developed MVC web applications across three projects and a full-stack internship.

TECHNICAL SKILLS

Languages: Java 17
Frameworks: Spring, Spring Boot, Hibernate, Spring ORM, Spring MVC
Backend: Servlets, JSP, JDBC, REST API
Frontend: HTML5, CSS3, JavaScript, React.js
Database: MySQL, SQL queries, Joins, Indexing
Tools: Git, GitHub, Maven, Eclipse IDE, VS Code, Apache Tomcat, MySQL Workbench, Postman
Concepts: Object-Oriented Programming (OOP), Exception Handling, Collections Framework, CRUD, MVC architecture, DAO Design, Session Management

PROJECTS

Foodie Store – Online Food Ordering System https://github.com/ompatil8050026171-code/FoodieStore
Tech Stack: Java, Servlets, JSP, MySQL, HTML5, CSS3, JavaScript, JDBC

- Created an online food ordering app in Java using Servlets, JSP and JDBC, organized into 5 modules (restaurants, menu, cart, orders, users) with MVC and the DAO pattern
- Added menu filtering and sorting by price, rating and restaurant name, plus a session-based cart with saved order history, backed by a normalized MySQL schema

Movies Hub – Movie Booking Web Application https://github.com/ompatil8050026171-code/MoviesHub
Tech Stack: Java, Spring Boot, REST API, Spring Data JPA, Hibernate, MySQL, JSP, JavaScript, HTML, CSS

- Built a movie booking web app with Spring Boot REST APIs, Spring Data JPA and Hibernate on MySQL, with a JSP and JavaScript frontend for browsing, search, theatres, shows and seat selection
- Wrote the checkout flow that calculates seat and snack prices and confirms the booking, added session-based user management with booking history, and tested the endpoints in Postman

Fashion Store – E-Commerce Web Application https://github.com/ompatil8050026171-code/Fashion-Store
Tech Stack: Java, JDBC, Servlets, JSP, MySQL, HTML5, CSS3

- Developed an e-commerce site in Java with Servlets, JSP and JDBC where users can register, log in, browse products, view details and manage a cart, structured with MVC and a separate DAO layer
- Stored product and user data in MySQL with JDBC CRUD and made the pages responsive with HTML5 and CSS3

INTERNSHIP

Full Stack Developer Intern – Tap Academy, Bengaluru **Feb 2026 – Sep 2026**
Tech Stack: Java, HTML5, CSS3, JavaScript, Servlets, JSP, JDBC, MySQL, MVC, Hibernate, Spring

- Developed and maintained full-stack web application modules using Java, Servlets, and JSP under MVC architecture
- Implemented database connectivity and CRUD operations using JDBC integrated with MySQL
- Collaborated with senior developers on real-world development practices, code reviews, and debugging
- Participated in Agile daily stand-ups and sprint reviews to track progress and incorporate feedback

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering
Dr Sri Shivakumar Mahaswamy College of Engineering, Bengaluru | CGPA-8.43 | Year-2026

Pre-University Course (PUC) – Science
Excellent PUC College, Moodubidre | Percentage-82.83% | Year-2022

SSLC (10th Grade) – KSEEB
Holy Cross Convent School, Bidi | Percentage-83.04% | Year-2020
